The money you raise for IIH UK will help us to promote awareness by printing leaflets, IIH Medical cards and posters, the upkeep of our website, as well as paying for medical and patient conferences. IIH UK have registered with the James Lind Alliance and have set up a Priority Setting Partnership bringing patients and clinicians together to discuss and decide on the top 10 areas for IIH research. At a cost of around £25k every penny you raise really does help.

We have no paid staff or buildings to maintain, all money raised goes back into helping people with IIH.

Please do not go door to door collecting. People do not like being disturbed at home and you need a licence from the council.

Working to relieve the pressure!

The quote below was written by an IIH sufferer who was also one of the founders of IIH UK.

“Imagine your head feels as though it's been crushed by a vice, a headache unlike anything you've ever felt before, where every part of your head hurts and the pressure is unbearable, and it's a pain no-one can see.

Imagine a world in permanent soft focus, where things come in twos, where things disappear momentarily, where you can't tell how deep a step is, where bright light is a pain you can't stand.

Imagine a world that sways around you, where you feel as though you're in the middle of a storm on a cross channel ferry, feeling dizzy and sick - yet you're standing still.

Imagine you're so totally exhausted that your body doesn't want to move and all you want to do is sleep, yet an incessant roaring in your ears keeps you awake.

Imagine feeling lost and fearful, confused in a place you used to know well.”

Welcome to the world of IIH.
